REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The present invention pertains to a system and method of testing a plurality of memory circuits within a semiconductor device.

The claimed invention (claim 1 as representative) recites features such as "...comparing plural pieces of read data read from the plurality of memory circuits in a read operation with one another and generating a first signal as first comparison results, comparing one of the plural pieces of read data, which is read from a predetermined one memory circuit, with write data and generating a second signal as a second comparison result in parallel with the first signal..." and these two signals are used to determine the results of the test.

The prior arts of record (Sim et al. U.S. Patent No. 6,546,511 as an example of prior arts) teach comparing the outputs of a circuit with each other and in an analogous art, other prior arts teach (Brauch et al. U.S. Patent No. 6,550,023) teach that the contents of the addressed location are read and compared to an expected value (in a memory test, the expected date would be the data that was written into the memory).

However, the prior arts fail to teach or suggest these outputs being generated in parallel to be used to determine the test results. As such, modification of the prior art of record can only be motivated by hindsight reasoning, or by changing the intended use and function of the prior art themselves. Therefore, it is not clear that one of ordinary skill in the art at the time of the invention would have made the necessary modifications to the prior art of record to encompass the limitations set forth in the present application.

Art Unit: 2133

Moreover, none of the prior arts of record, taken either alone or in combination, anticipate nor render obvious the claimed inventions. Hence, claims 1-18 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
